KEY INSIGHTS

- ✓ Peak production: 2,695 thousand B/D (2005)
- ✓ Worst period: 1981-1988 (8 consecutive Bust years)
- ✓ Best decade: 2000s (avg 2,293 thousand B/D)
- ✓ Nigeria ranks 6th among OPEC members
- ✓ Saudi Arabia produces 4x more than Nigeria
- ✓ Nigeria's OPEC share declining (7.14% → 6.53%)
- ✓ Pipeline security drives production cycles

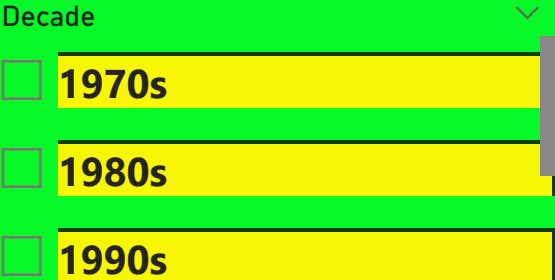

RECOMMENDATIONS

- ◆ Protect pipeline infrastructure from vandalism and oil theft
- ◆ Transform NNPC into a world class oil company like Saudi Aramco
- ◆ Increase domestic refining capacity through Dangote Refinery
- ◆ Invest in Niger Delta community development to reduce militancy
- ◆ Diversify into LNG exports through expanded NLNG operations
- ◆ Implement consistent long term national energy policy
